6700 SERIES

PUSH-PULL TRIM FOR MORTISE LOCKS

- ✓ **Non-handed** (except for engraved models).
- ✓ **Push/pull sides can be mounted with the handles up, down or horizontal.** *When cylinders are used, only down or horizontal handles can be used. Please see Note 2 below.*
- ✓ **No modification required on standard mortise lock preparation.**
- ✓ **Compact non-handed covers provide maximum clearance between the handle and door for easy operation in any application.**
- ✓ **UL classified.**
- ✓ **Available in BHMA finishes.**
- ✓ **Meets ADA requirements.**

NOTES:

1. ABH does not provide mortise locks and cylinders.
2. When **cylinders** are used, the handles **must** be mounted in the **down or horizontal positions** on the cylinder side. When a thumb turn is used, **horizontal** mounting is required (or use "J" series).
3. Please call us for trim fit for other manufacturers of mortise locks, or for special applications.
4. When ordering **engraved** models, add the letter **P** after the numbers shown below and designate mounting.
5. Must use mortise lock for knob trim Do **not** use mortise lock for lever handle.
